

Air Cooled Reach-in

Ruey-Shing's classic stainless steel reach-in designed to stand up to the tough conditions found within in a busy commercial kitchen. Finished in 300# stainless steel, the series has all the features you would expect from a top-end product.

Product Feature:

- Stylish stainless steel exterior with aluminum handle
- Adjustable heavy duty PVC coated shelves
- Castors
- Digital controller with temperature display
- Automatic de-frost
- Self-closing door
- Replaceable door seals
- Locking plate
- Ventilated cooling system
- CFC free refrigerant

Static Cooling Type

Featuring stainless steel finishing and stylish design, the Ruey-Shing static cooling refrigerator is your ideal choice for various occasions.

Product Feature:

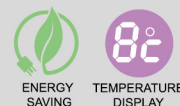

- Stylish stainless steel exterior with aluminum handle
- Adjustable heavy duty PVC coated shelves
- Castors
- Knob controller with temperature display
- Centripetal type door closure
- Replaceable door seals
- Locking plate
- Static cooling system
- Seamless reinforced PVC flooring for easy maintenance
- Internal water drainer
- Clean-free condenser
- CFC free refrigerant

Blast Freezer

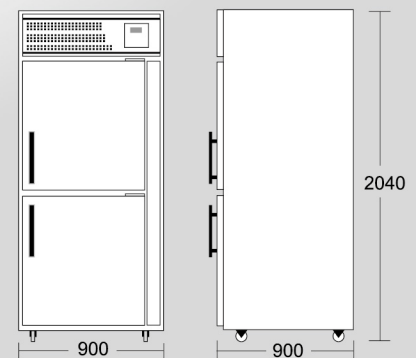

The Ruey-Shing blast freezer is an essential element of any professional kitchens. Compiled with the new innovative evaporator compartment with DC motor to descent internal temperature instantly, this blast freezer is the key to maximizing the storage condition, taste and texture.

Product Feature:

- Stylish stainless steel exterior with aluminum handle
- Adjustable stainless steel shelves
- Castors
- Digital control panel
- Automatic de-frost
- Centripetal type door closure
- Locking plate
- Innovative evaporator compartment design with DC motor
- CFC free refrigerant
